- OOP TypeScript
- PHP
- Laravel
- Vue JS

Tools

- GitHub
- Figma
- Jira
- Postman
- Power BI
- Git
- Canva
- AWS EC2
- MS Office
- Linux

SOFT SKILLS

- Teamwork
- Problem solving
- Communication
- Technical thinking
- Attention to detail
- Task management
- Time management

PROFILE

Full name : SokLeap Seng	Date of Birth: Sep 22nd, 2004
Gender : Female	Place of birth : Kampong Thom
Nationality : Khmer	Marital status: Single

EXPERIENCE SCHOOL PROJECTS

School Management System
Mar 28th, 2025 - Jun 07th, 2025
- Role: Team member.
- Designed the table for relationships and drew a UML class diagram in draw.io.
- Created a system about "**School Management System**" using OOP TypeScript, GitHub, and Git.
- Implemented key features such as relationships between student, teacher, subject and class in the project to run smoothly.

Virtual company (VC1) Project
Mar 10th, 2025 - Apr 28th, 2025
- Role: DevOps manager.
- Designed a website using Figma.
- Created a system about "**Coffee shop system or POS system**" using HTML, CSS, tailwind, MySQL, JavaScript, PHP, GitHub, Git, and Jira.
- Implemented for hosting the project to run smoothly.

Note-taker Project
Jan 13th, 2025 - Jan 27th, 2025
- Role: Developer.
- Designed an application using Figma.
- Built an application about "**Note-taker**" using JavaScript, GitHub, and Git.
- Deployed a project with Netlify.

Software Deployment
Dec 30th, 2024 – Jan 05th, 2024
- Role: Individual.
- Deployed website with WordPress and MobaXterm.
- Learned about MobaXterm, AWS EC2, and a server for hosting.

Algorithm project
Nov 18th, 2024 – Dec 02nd, 2024
- Role: Team member.
- Created UI layouts with Figma and Integrated interface design.
- Built about "**Windows system management tool**" using an algorithm, GitHub, and Git.
- Collaborated with the team to smoothly project.
- Implemented key features such as Wi-Fi speed check using speedtest-cli, and Wi-Fi password retrieval using Windows shell commands.

Web design Project
Oct 21st, 2024 – Nov 03rd, 2024
- Role: Team Leader.
- Built a website about "**Canteen**" using HTML, CSS, and SASS.
- Designed a website mockup for Canteen using Figma, GitHub, and Git.
- Responsible for managing GitHub operations, including push, pull, commit, and merge activities.
- Debugged code in the project.
- Supported team member.

TECHNICAL WORKSHOPS

- **Product Owner Workshop** Jan 18th & 25th, 2025
  - Attended to the product owner role by understanding responsibilities, writing user stories, and practising agile workflows using Jira.
  - Presented by: Felix Leuker & BI Staff

- **UX/UI Design Workshop** Feb 8th, 2025
  - Attended to translating project requirements into prototypes and applying design logic through hands-on UX/UI activities.
  - Presented by: Philip Jame Bardon

- **Data Analytics Workshop** Mar 19th, 2025
  - Attended to prepare and visualise data using Python and Power BI to transform raw information into actionable insights.
  - Presented by: Felix Leuker

- **Project Management Workshop** Feb 7th & Mar 14th, 2025
  - Attended to understanding agile team roles and collaborate effectively using Jira, Git, and GitHub to manage user stories and project tasks.
  - Presented by: Felix Leuker
